Telephone (for further questions):

Contact details of your new provider (e.g. Strato, 1&1, Fasthost etc.):

Name of your new provider:

Your customer number of your new provider (if present):

I've instructed and empowered my new provider/registrars to take over the administration of the listed domains. Please release a potential Registrar-Lock and agree to the transfer request which will be received shortly with an ACK or, as the case may be, forward the cancellation to the appropriate registrar.

Starting on the day of the cancellation the new provider has to complete the transfer within 60 days. If no transfer request is received within this period, your domain will return to the status "registered". In this case the accounting periods remain uncanceled and a transfer can only be started again by sending a new form for changing the provider.

I hereby confirm that I am the owner / admin-c of the above mentioned domain names.
